

## Jivani Neel Dineshbhai

**Nationality:** Indian **Date of birth:** 26/03/2000 **Gender:** Male

**Phone number:** (+49) 1794165256 **Email address:** [neeljivani03@gmail.com](mailto:neeljivani03@gmail.com)

**Website:** <https://next-portfolio-neel2603.vercel.app/>

**Home:** Reichenheiner Straße-35/Wnr-443, 09126 Chemnitz (Germany)

### WORK EXPERIENCE

#### MERN Stack Developer

**OM TEC WEB SOLUTION** [ 09/08/2021 – 08/07/2022 ]

City: Surat

Country: India

I worked in **OMTEC** Web Solution for 11 months as **MERN Stack Developer**. During this time, i learned more about **Node JS** for Backend & **React JS** for Frontend. Moreover, i worked with **MongoDB** and **Mongoose**. Using this skill i successfully developed some of Company's Client Project as well as Product. I also Made **E-commerce & Portfolio** website to take my skill to the next level. Furthermore, I also worked with **PostgreSQL** Database & **Sequelize** ORM.

#### Internshi as Full Stack Developer

**Belymon Infotech** [ 01/12/2020 – 31/05/2021 ]

City: Surat

Country: India

I started my professional career with 6 months of internship as a full-stack developer where I learned plenty of things that leads me to be a full-stack developer. I have focused on web development using javascript. I have learned **React Js** and **Node Js** during my internship and made lots of projects to clear my ideas about the framework.

### EDUCATION AND TRAINING

**Technical Universität Chemnitz** [ 10/10/2022 – Current ]

Address: 09111 Chemnitz (Germany)

- Software Designing
- Image Understanding
- Machine Learning

## LANGUAGE SKILLS

---

Mother tongue(s): **Gujarati**

Other language(s): **English** | **German**

## DIGITAL SKILLS

---

React JS, React Route, React Hooks, React Dom / Node Js / Express Js / JavaScript / Bootstrap / HTML / JSON / CSS / Web Development / RESTful api / SQL (Postgre) / sequelize / threejs / Spline 3d / Nextjs/ Sanity.io

## PROJECTS

---

### TRACKER BASED PROJECT CONTROL SYSTEM

[ 12/07/2020 – 08/04/2021 ]

In this project our prime feature is **Tracker**. Team member can chat using our chat system and can maintain time table for any kind of project. Company's employee uses multiple platform to perform such as for todo they use **Trello** and for communication they usually use **Slack**, However, our website provide **single page web application** for all this activities. In addition, it also count the salary of individual according to their work performance. It becomes more easy to assign any **TODO** to any worker and keep eye on it. Furthermore, It include leave page in which employee directly can notify to boss for holiday.

### FIRE SAFETY

[ 28/07/2019 – 19/04/2020 ]

We have pleasure in introducing our new project **FIRE SAFETY**, which is fully developed to spread awareness to local denizen as well as it fulfil the gap between fire **agencies** and **dwellers** of nation. It is a genuine project which is fully equipped and designed for government fire department. Public can directly contact with different types of fire agency department and can set up fire safety into their offices and building.

## HOBBIES AND INTERESTS

---

### To Play with codes and learn from it.

I love to play with code and learn new things from it, which help me to solve new challenges and improve my problem solving skills
